

TRANSPARENT

OPUS POWERISOLATOR

PRELIMINARY PRICING

OPUS PowerIsolator
includes 2m input OPUS Power Cord
MSRP - \$15,950

**TRANSPARENT OPUS
POWERISOLATOR SYSTEM:**
The OPUS PowerIsolator, in
combination with the OPUS
Power Cord, completes this apex
power connectivity solution.

POWER PERFECTED

Noise impacts every high fidelity audio system. Twenty-three years of technical development, materials research, and critical listening have culminated in Transparent's paramount technology to eliminate power line noise. OPUS PowerIsolator is the key to unlocking the utmost performance capability of an ultimate level system. When processing unrestricted AC power transferred via the OPUS Power Cord, the OPUS PowerIsolator helps a system deliver previously unheard subtleties and dynamic range that is so expansive that it will redefine the listener's experience of music realism.

FEATURES

- **Power factor correction controls phase shift for superior tonal fidelity**
- **Parallel circuitry provides noise filtration without limiting current**
- **Fully damped carbon fiber construction controls vibrations and eliminates electromagnetic field constriction for untethered dynamics**
- **Precision machined isolation feet decouple OPI from vibrations**

OPUS POWER CORD OPUS PowerIsolator ships with our flagship Generation 5 Technology Power Cord for conditioning without compromise
